

*The e-Manager GmbH is an owner-managed company, providing consulting and service in the e-business sector. Being independent and therefore impartial, the e-Manager GmbH analyses the existing systems of its client,*

*selects the best-fitting software and provides its installation, configuration and maintenance. The e-Manager GmbH is the external manager of the client's e-business section.*

*Outstanding cost effectiveness, commitment to service, competence in project management and the interdisciplinary expert knowledge of our managers make us the ideal partner for medium-sized companies in the DACH countries (Germany, Austria, Switzerland). A great number of successful projects in various industry sectors give evidence of this.*

*Thanks to its corporate philosophy „independence and outstanding commitment to service“, the e-Manager GmbH is standing out from its competitors.*

*Increasing recognition in the market and impressive cost effectiveness have led to a continuous rise of the e-Manager GmbH's volume of orders. Over the next five years the e-Manager GmbH aims at becoming a renowned and successful e-business manager for medium-sized companies in the DACH countries, thus laying the foundations for sustainable growth. The service portfolio will be expanded by offering self-developed products. Its excellent employee culture, its substantial structures as well as its commitment to Germany as a business location are helping to increase the e-Manager GmbH's market position as a partner for medium-sized companies.*
